

I PAY for XM radio and I should be able to hear what I want not what someoneelse thinks I should hear. I have had xmradio for about 9 months and I love it. I cannot get the selection of channels in Detroit that I get with XM radio. Please reject petition 04-160 so I can keep listening to what I want. If you let them limit the traffic and weather, they will then have the leverage they need to shut down XM radio altogether! Please reject petition 04-160 so I can keep listening to what I want. John Meze
